Jalapenos - Sliced

OUR AMAZING ITALIAN CASTELVETRANO OLIVES

ORGANIC HAND-PICKED WHOLE & PITTED SICILIAN OLIVES

Our Castelvetro olive comes from the Belice Valley in Sicily, Italy where olive trees have been growing in the shade of the ancient Temples of Selinunte since the 5th Century BC.

Our modus operandi begins with the olive tree in which we manage and control the entire supply chain, from the tree to the shelf. Due to investments in technology, our factory has managed to obtain the right balance between the organoleptic qualities of the product and the right conservation requirements. This important work allows us to offer the end consumer a safe product that respects the natural characteristics of olives, typical of Sicily.

The Process

1. Handpicking the green olives
2. Washing and grading
3. Lye treatment to get rid of the bitterness
4. Washing and refrigerated storage until packing in pasteurized jars
